

Tech Coast Angels in the Inland Empire

You are invited to a Screening session April 26th in Riverside, CA

Sponsored by

We're Tech Coast Angels and we're a lot more than just tech. We invest in startup companies in every sector from IT, life sciences, services, consumer products and internet technologies. Our investments reflect the diversity of the southern California economy. We operate in San Diego, Orange County, Los Angeles, Westlake Village and Santa Barbara. It's about time we setup shop in the Inland Empire.

Over the past 10 years we've become the largest angel investment organization in the U.S, investing over \$83M in 128 local startups. By way of celebrating the 10th anniversary, we're expanding into the Inland Empire. Learn more about us at this Screening session:

- We'll introduce you to the TCA process: you'll learn how the organization works and how to build a permanent angel network in Riverside.
- Three pre-qualified companies already working their way through the TCA funding process will pitch their companies. Each company is given 15 minutes to present followed by 15 minutes of questions and answers. There is no fee to the entrepreneurs to present.
- At the end of the presentations the companies are invited to depart, lunch is served and the private discussions begin. To seed the discussions several TCA members from other networks will be on hand.
- If you are an accredited investor who's interested in early-stage high-tech and life science deals, this session is for you.

We're looking for local angel investors to step forward and build a local network.

Lunch is provided, courtesy of our sponsors.
